

EQUITY

SOLUTIONS

FROM BRIM HEALTHCARE

Your community
needs your hospital.

But your hospital
needs help to
survive.

Is the condition
stable?

Fair?

Critical?

**BRIM can put your
hospital on the road
to health.**

**YOU CHOOSE
HOW.**

SALE OR LEASE

Your community can benefit from selling or leasing its hospital to Brim, an experienced operating company with national capabilities and excellent financial backing. Brim is presently acquiring community hospitals in selected markets.

If Brim acquires your facility, we will work to improve it in multiple areas. With Brim's expertise and resources, we can:

- Invest in efficient and effective technologies and equipment
- Expand services and market share
- Recruit needed doctors
- Operate efficiently through Brim's proven management systems, in such areas as clinical resource and supply chain management

Yet selling or leasing to Brim does not signal the end of local input into the future of your hospital.

Brim was among the first in the industry to develop a model that balanced a community's need for local decision making with the need for professional hospital management expertise. Local boards and medical staff leaders work closely with Brim to map out the future of the hospital.

JOINT VENTURE

Joint ownership with Brim might be the right choice for your hospital. Communities and doctors seeking to replace existing or construct new community hospitals increasingly find the joint venture model attractive. Brim's collaborative management style makes our company an ideal partner.

*With Brim, you have choices.
Let's talk about your best options.*

WHY CHOOSE BRIM?

OUR STRENGTHS

Quality patient care, first and foremost. Clinical quality drives the performance of every hospital. Without it, success is impossible.

Financial strength. We can improve your hospital's performance and invest in its future.

A proven model for balancing local decision-making with industry management expertise. If you choose Brim, we'll map out the future together.

One of the industry's best track records. Brim experts have owned and operated community hospitals across the nation for nearly four decades. We're here to stay.

OUR HISTORY

Since 1971, Brim Healthcare has worked with community hospitals to help them achieve stability, growth, and success. Brim currently operates 37 full-service, acute-care hospitals in 18 states.

Brim is a privately held company based in Brentwood, Tennessee.

Call us to discuss the future of your hospital.

BRIM IS THE RIGHT CHOICE.

*Pikes Peak Regional Hospital,
Woodland Park, Colorado*

THE STORY OF PIKES PEAK REGIONAL HOSPITAL

Pikes Peak Regional Hospital is a new and powerful example of how a community benefits from a lease with Brim.

The citizens of Woodland Park, Colorado, raised the money to buy the land and build a new hospital, then selected Brim to lease and operate the facility.

This beautiful, new, full-service hospital opened its doors in October 2007.
